ShanghaiTech University

EE 115B: Digital Circuits

Fall 2024

Homework Policy

1. This course uses Blackboard to handle the homework assignments, submissions, and grades.
2. In addition to the notifications on Blackboard, the instructor will email the class when new homework assignments are posted.
3. Homework must be prepared by yourself. Please refer to the course syllabus for the academic integrity statement.
4. Please submit electronic copies of your work in PDF format to Blackboard. You may prepare electronic copies directly on your device or scan your hardcopies into PDF documents for uploading. For each assignment, you have three attempts to submit your work.
5. Homework must be prepared in English.
6. You need to show your work in your submissions to receive any credit.
7. Late work may be submitted by email to the head TA (Jiawei Mao, maojw@shanghaitech.edu.cn). Unless otherwise stated, late work is accepted with a 20-point grade deduction for the first late day and a 40-point grade deduction for each additional late day, which means that if you submit your work three or more days later, you will receive zero points.
8. Your homework grades will be posted to Blackboard. You should check your grades and ensure that they are correct. Please notify the head TA (Jiawei Mao, maojw@shanghaitech.edu.cn) by email if there is anything wrong with your grades. The grades become final three days after they are posted to Blackboard.
9. If you want your homework to be regraded, you must submit your request to the head TA (Jiawei Mao, maojw@shanghaitech.edu.cn) by email no later than three days after the grades are posted to Blackboard.
10. If you have any questions about this policy, please contact the instructor: Hengzhao Yang, hzyang@shanghaitech.edu.cn.
11. Items 3 and 5-9 apply to the attendance records, lab reports, and exams.
